

## Party Ends

by API

[Verse 1] Oh girl, why you caught my attention like this  
The situation is not right for now  
With you sometime can you tell me no, yeah  
I ain't got no time to drink with you, no  
You showed no emotion you have done yeah  
Places straight to you anytime you're thinkin'  
Sure, you can blame it for being naive, ah  
I never knew i could feel so much-  
[Chorus] Gotta let you go  
You've been passing time  
Down a lonesome road  
And you'll see my face  
Gotta let you go, oh girl  
You've been passing time  
Down a lonesome road  
And you'll see my face  
[Verse 2] I don't party every weekend like you. yeah  
You turn around and you beg me to stay, ah  
Shows you seem to break somebody's heart, yeah  
I tell my self that nobody cares, no  
I thought you were different i was wrong, yeah  
The worst part is making the choice to do it  
I was not bad but you called me bad yeah, ah  
Don't tell me what they said about-  
[Chorus] Gotta let you go  
You've been passing time  
Down a lonesome road  
And you'll see my face  
Gotta let you go, oh girl  
You've been passing time  
Down a lonesome road  
And you'll see my face
